

Forensic Dentistry Short Course

Disaster Victim Identification

Course Convenors

**Associate Professor
Richard Bassed**
Deputy Director and Senior
Forensic Odontologist, VIFM.
Head, Department of Forensic
Medicine, Monash University.

Dr Jeremy Graham
Consultant Forensic Odontologist,
VIFM
Senior Lecturer, Dentistry,
La Trobe University

Thursday 3 May - Sunday 6 May 2018

Course Description

This intensive short course is designed for dentists who are interested in learning about the role of dentistry in Disaster Victim Identification (DVI), including permanent and Reserve members of the Australian Defence Force. The course covers Disaster Victim Identification, including Interpol protocols, mortuary protocols, how we work with other forensic specialists, medico-legal report writing and appearing as an expert witness in court.

The course will include case studies, practical exercises and scenario-based training. The course will be led by two senior forensic odontologists with extensive experience in Disaster Victim Identification (Indian Ocean Tsunami 2005, Black Saturday 2009, MH17 2014). Guest lectures will be presented by forensic pathologists, a forensic anthropologist, the mortuary manager and a DNA expert.

Course Objectives

At the end of the course participants will have:

- an understanding of the role of forensic dentistry in DVI
- a familiarity with internationally recognised DVI protocols and processes, from the scene through to reconciliation
- observed an autopsy
- an understanding of the respective roles of forensic experts

How to Register

For more information or to register, please contact:

Rosalie Clementson
Email: rosalie.clementson@monash.edu
Tel: +61 9684 4322

This course is eligible for 28 Scientific hours / Continuing Professional Development (CPD) points.

"Fantastic, informative and very interesting course. All presenters were excellent, affable, knowledgeable and informative. A great experience overall and I look forward to enhancing my skills and learning more. Thank you to all presenters as well as the other personnel who contributed to this excellent, enjoyable experience."

Errol Kilov, TAS.

"Both Jeremy and Richard, and all presenters, have been so friendly, helpful, informative and approachable. I have thoroughly enjoyed and been very engaged throughout this whole course.

- certainly the best course I have participated in!"

Dr Michelle Keogh, VIC.
